Business Data Analyst | Application Support | Operations & Customer Solutions

PROFESSIONAL SUMMARY

Results-driven Business Data Analyst and Application Support professional with experience delivering data-driven insights, improving operational efficiency, and resolving complex technical and business challenges. Proven ability to build KPI dashboards, automate reporting processes, and analyze large datasets to support strategic decision-making. Combines strong analytical expertise with customer-focused problem solving and cross-functional collaboration.

CORE COMPETENCIES

• Data Analysis & Visualization (Power BI, Excel, SQL)
• KPI Reporting, Forecasting & Trend Analysis
• Application Support & System Troubleshooting
• Business Process Improvement & Report Automation
• Stakeholder Communication & Customer Support
• Documentation, Reporting & Data Accuracy
• Problem Solving & Cross-Functional Collaboration

TECHNICAL TOOLS & TECHNOLOGIES

Power BI | SQL | Excel | Python (Basic) | APIs | JIRA | Git | POS Systems | Microsoft Word | PowerPoint | Outlook

PROFESSIONAL EXPERIENCE

Business Data Analyst (Freelance) | Regina, Canada | Sep 2024 – Present

• Developed 3+ interactive Power BI dashboards to monitor KPIs, sales trends, and operational performance
• Improved reporting accuracy by extracting, cleaning, and analyzing datasets using SQL and Excel
• Automated recurring reports, reducing manual workload by over 40%
• Identified key trends and anomalies to support faster, data-driven business decisions
• Translated business requirements into actionable insights, dashboards, and visual reports
• Worked with structured and semi-structured data to improve reporting quality and operational visibility

Sales Associate | Brand's Convenience Store | Regina, Canada | Jan 2024 – Present

• Managed 50+ daily transactions with high accuracy using POS systems in a fast-paced retail environment
• Monitored inventory levels, restocked products, and maintained organized records to support smooth daily operations
• Resolved customer issues efficiently by assessing situations and providing practical solutions
• Supported team operations and workflow efficiency while maintaining service quality during busy periods
• Strengthened customer service, cash-handling, and multitasking skills in a high-volume setting

Front End Supervisor | Olive Garden | Regina, Canada | Sep 2023 – Present

• Supervised front-end operations and supported smooth service delivery in a high-volume customer environment
• Handled customer concerns professionally, improving service quality and overall guest experience
• Managed POS transactions accurately and maintained strong attention to detail in payment processing
• Supported and guided team members during busy shifts to improve coordination and efficiency
• Strengthened leadership, communication, and problem-solving skills in a fast-paced setting

Associate Software Engineer | DRC Systems | Gandhinagar, India | Jul 2022 – Jun 2023

• Resolved 20+ technical issues weekly using SQL queries, API analysis, and log investigation
• Supported application deployments and system updates across environments, helping maintain stable operations
• Collaborated with cross-functional teams to troubleshoot and resolve production issues efficiently
• Created technical documentation that improved troubleshooting efficiency by 30%
• Reduced issue resolution time by identifying root causes and applying effective support solutions

Development Intern | DRC Systems | Gandhinagar, India | Jan 2022 – Jun 2022

• Cleaned, validated, and organized datasets to improve data accuracy and reliability
• Assisted in building reports and dashboards to support business and development insights
• Performed trend analysis and basic statistical evaluation on project data
• Collaborated with team members to translate business requirements into structured data solutions
• Gained hands-on experience with Excel, SQL, Python, and BI tools in a professional IT environment

PROJECTS

Sales & KPI Dashboard (Power BI)

• Designed interactive dashboards to track revenue, KPIs, and business performance metrics
• Integrated SQL and Excel data sources to ensure accurate and dynamic reporting
• Identified trends and performance gaps, enabling data-driven decision-making

Wildlife Species Detection System | Saskatchewan Polytechnic | Jan 2024 – Apr 2024

• Built a machine learning model using TensorFlow and Keras to classify endangered species from images
• Developed a Flask-based web application for real-time predictions
• Improved model accuracy through data preprocessing and iterative training

EDUCATION

Post-Graduate Certificate, Artificial Intelligence & Data Analytics
Saskatchewan Polytechnic, Canada | 2023–2024

Bachelor of Technology, Information Technology
Ganpat University, India | 2018–2022
